RE: Project No. 50664, Issues Related to the State of Disaster for the Coronavirus Disease 2019

Dear Chairman and Commissioners,

Copenhagen Infrastructure II K/S and Copenhagen Infrastructure III K/S (collectively defined as "CIP") have received the Public Utility Commission of Texas ("PUCT") Project No. 50664 regarding the Coronavirus Disease 2019. CIP and its affiliates are owners of wind and solar energy generating facilities in the Electric Reliability Council of Texas ("ERCOT") and Southwest Power Pool ("SPP") markets.

In response to the PUCT Project No. 50664, CIP is closely monitoring the Coronavirus Disease situation and has implemented mitigation measures to reduce the impact of COVID-19 on normal operations. CIP's focus is the health and safety of individuals who work onsite, while identifying potential technical and supply chain risks that could have an impact on site operations. The CIP management team and its service providers are meeting regularly as the situation evolves, heeding the guidance of state and federal health authorities.

Please let us know if we can provide any additional information on the Coronavirus Disease 2019 response.

Sincerely,

Copenhagen Infrastructure II K/S
Copenhagen Infrastructure III K/S
